Keighley & Airedale BUSINESS Awards 2020

# Engineering Apprentice of the Year Award Criteria

A chance for engineering businesses to nominate their talented apprentices

Our **Engineering Apprentice award** praises young apprentices paving their way in an industry at their heart of Keighley and Airedale.

* The following questions are pointers to help you complete your application. You will not be penalised if you are unable to provide information for every question.*

## Part 1: About your Engineering Apprentice

Word count: 100 - 300 words

- Please tell us about the person you are nominating including name, job title and your business
- When did they join your business?
- How did their journey with your business begin? For example, via a college/apprenticeship provider
- What were they doing prior to joining your business? For example, working, studying
- What is their specific role within your business?
- Are they working towards an apprenticeship/qualification?

## Part 2: What Makes Them a Worthy Winner?

Word count: 200 - 600 words

- Why are you nominating this person for an award?
- What makes them stand out from the crowd?
- How have they benefited your business since joining?
- How have they developed as a person professionally?
- Have they overcome any significant barriers personally/professionally?
- What does the future hold for them within your business?

## Supporting Information

If applicable, please upload a maximum of 3 documents to support your application.
